Aquarello Water Color Pencils

AQUARELLO WATER COLOR PENCILS

"Paint With Pencils"

These pencils represent a radical departure from other colored pencils, as they contain WATER SOLUBLE LEADS.

1. They are guaranteed to be absolutely NON-FADING.
2. They are WASHABLE.
3. The colors can be superimposed and blended.
4. Aquarello Pencils can be advantageously used dry in place of ordinary colored leads.
5. They are easier to use than water colors, because the paint is in the pencil point.
6. The colors can be applied to almost any surface.
7. They can be sharpened satisfactorily in a pencil sharpener.
8. Whether the Aquarello Pencil marking is wet or dry it is the same color.

For wash effects these pencils can be used first like ordinary colored pencils—dry. The color can then be spread with a brush dipped in water or with a piece of wet felt wrapped around the finger.

Very striking results—bookmarks, lamp shades, etc.—can be obtained when Aquarello Pencils are used on paper or fabrics which have been moistened before the pencils are applied.

These new pencils are indispensable to designers, artists, architects, engineers, draftsmen, etc.

They are invaluable for coloring photographs, leather and wood designing, painting on silks and other fabrics. Aquarello pencils can also be used as make-up pencils or actors' pencils, without harm to the skin. The color can be washed off easily but does not run from normal perspiration.

Hexagon shape, polished to match color of lead, 12 colors.
